DETAILED ACTION

Appeal Brief Meeting

1. An appeal brief meeting was held with Mr. Olik Chaudhuri, Appeal conference member, on 11/24/2004 and after reviewing the merits of the Applicant's arguments, it was decided that the claims as presented in the instant application be allowed.

Allowable Subject Matter

1. Claims 1-13 are allowed.
2. The following is an examiner's statement of reasons for allowance:

A search of the prior art did not disclose a reflector and a double-mode liquid crystal display device incorporating such a reflector, comprising a combination of structural elements, more specifically:

- (a) An adhesive layer disposed on one side of a transparent film and a groove structure provided on the other surface of the transparent film, and
- (b) A transparent cover film formed so as to cover an outer surface of the groove structure.

The Appeal conference members agreed with the Applicant's arguments and are of the opinion that the cited prior art by Akins (U.S. Patent No. 6,285,426) did not teach the adhesive layer and the groove structure on either side of a transparent film but instead teaches that the adhesive layer (30) and the groove structure (32) are located on the same side of the transparent film (16). In

addition the adhesive layer (30) is interposed between the groove structure (32) and the transparent cover film (28) and hence the transparent cover film (28) does not cover the outer surface of the groove structure, as recited in the instant claims. So, the Appeal conference member has reversed Examiner's rejections.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
